Dear Kirstin Green,

Thank you for the beautiful mosaic dragon you created in my kitchen. I am more pleased than I thought I could be with the final artwork.

Your execution of the dragon project was on schedule, under budget, and exceeded all expectations in terms of quality and tastefulness. Your design, planning, color scheme and tile selection were just right. And the work, from cutting and gluing to grouting and cleaning was handled professionally and efficiently. Your assistance with planning the lighting was an extra bonus.

There is nothing so gratifying as having original, permanent art built into my kitchen. And there is no other design that would be 18 feet long and yet fit so perfectly into the available space.

You would be amazed at the compliments I have received on the dragon. On several occasions friends have insisted on bringing their friends into my house just to see it. And, of course, I am delighted to show it.

Thanks again for making my house just a little bit special.

Warm Regards,

A handwritten signature in cursive script that reads "Jack Nash". The signature is written in black ink and is positioned to the right of the typed name "Jack Nash".
